AWS NASA SEWP VI Ordering Guide

About SEWP VI

NASA Solutions for Enterprise-Wide Procurement (SEWP), pronounced "soup," is a Government-Wide Acquisition Contract (GWAC) providing Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services to all federal agencies and their authorized support contractors. Managed by NASA Goddard Space Flight Center, SEWP is the longest-running GWAC in the federal acquisition space – serving 30,000+ government customers with over \$12 billion in annual obligated value (FY25). The program is self-funded through a 0.34% usage fee embedded in product pricing.

AWS SEWP VI Contract Information

Attribute	Details
Contract Holder	Amazon Web Services, Inc.
Contract Number	80TECH26D0232
Category	A – ITC/AV Solutions
Period of Performance	10 years (beginning November 1, 2026)
Contract Ceiling	\$20B per contract holder
CAGE Code	66EB1
UEI	NQEWN6C1LSU5
Business Size	Large
NAICS	518210 – AWS cloud services (consumption-based)
	541519 – AWS Professional services
	611420 – AWS cloud training and certification

What's in Scope

AWS holds a **Category A** contract covering cloud computing solutions and services in commercial and GovCloud regions, including:

- Cloud infrastructure and platform services
- Storage, networking, and database services
 - AI/ML and analytics services
 - Related professional and managed services
 - Cloud training and certification
 - (Solution via cloud computing...)

SEWP VI uses a "Catalog by Request" pricing model – AWS adds solutions dynamically as customers need them.

The SEWP PMO can also confirm scope eligibility at help@sewp.nasa.gov.

How to Order from AWS Through SEWP VI

Step 1 – Identify Your Requirement

Determine what AWS solutions or services are needed. Contact your AWS Account Manager or the AWS SEWP VI team (below) for assistance.

Step 2 – Submit Your Request

Customers submit a Request for Quote (RFQ), Market Research Request (MRR), or Request for Information (RFI) through the SEWP Quote Request Tool (QRT) at www.sewp.nasa.gov. The QRT distributes requests to eligible Contract Holders based on Category, Group, and NAICS code per Fair Opportunity requirements. AWS receives notification and responds with a compliant quote.

Step 3 – AWS Responds to Your Request

AWS reviews the request and responds accordingly – with a quote, market research information, or technical details. All pricing on quotes includes the 0.34% SEWP fee.

Step 4 – Issue a Delivery Order

The agency Contracting Officer issues a Delivery Order (DO) citing the NASA SEWP VI contract and routes it to the SEWP PMO:

- **Email:** sewporders@sewp.nasa.gov
- **Fax:** 301-286-0317

Note: All delivery orders must route through the NASA SEWP PMO. Orders are processed and forwarded to AWS with an assigned SEWP Control Number (SCN). For delivery order formatting requirements, refer to www.sewp.nasa.gov.

Step 5 – Fulfillment

Once the SEWP PMO validates and forwards the order, AWS processes the order and delivers the contracted solutions and services.

Fair Opportunity

Per FAR 16.505(b)(1), each contractor shall be given fair opportunity to be considered for each order exceeding the micro-purchase threshold issued under multiple-award contracts. The method for obtaining fair opportunity is at the discretion of the ordering Contracting Officer. The SEWP QRT is the recommended method to satisfy and document fair opportunity requirements.

AWS SEWP VI Program Contacts

For quotes, technical questions, order support, or post-delivery issues:

Role	Name	Email
Program Manager	Jung Ormerod	jungorme@amazon.com
Deputy Program Manager	Simon Choi	chos@amazon.com

General Inquiries: aws-sewp-pmo@amazon.com

NASA SEWP PMO Contact Information

SEWP Helpline	301-286-1478
Email	help@sewp.nasa.gov
Orders (Email)	sewporders@sewp.nasa.gov
Orders (Fax)	301-286-0317
Hours	Monday – Friday, 7:30 AM – 6:00 PM ET
Website	www.sewp.nasa.gov

Additional Terms

Payment Terms	Net 30 Days
Credit Cards	Contact AWS for current policy
Warranty	Standard commercial terms apply
Minimum/Maximum Order	None

About Amazon Web Services

Amazon Web Services is the world's most comprehensive and broadly adopted cloud, offering over 240 fully featured services. Millions of customers – including the fastest-growing startups, largest enterprises, and leading government agencies – use AWS to lower costs, become more agile, and innovate faster.

AWS provides secure, scalable, and cost-efficient cloud solutions to support the unique requirements and missions of the U.S. Federal Government. AWS was the first commercial cloud service provider accredited to support government workloads across the full range of data classifications. AWS GovCloud (US) provides two physically isolated U.S. sovereign regions operated by U.S. citizens on U.S. soil for sensitive and controlled unclassified workloads.
